

# From question to shared knowledge: an illustrative open research workflow

Alex Morgan [Demo] and Sam Rivera [Demo]  
Example Research Studio (fictional institution)

**INTERNAL TEST EXAMPLE.** This manuscript is entirely fictional. It reports no experimental results, makes no scholarly claims and has no registered DOI.

## Abstract

Clear questions, documented methods and accessible outputs help readers follow a research narrative. This demonstration describes a three-stage workflow and includes sample supporting material for evaluating the website reading and download experience.

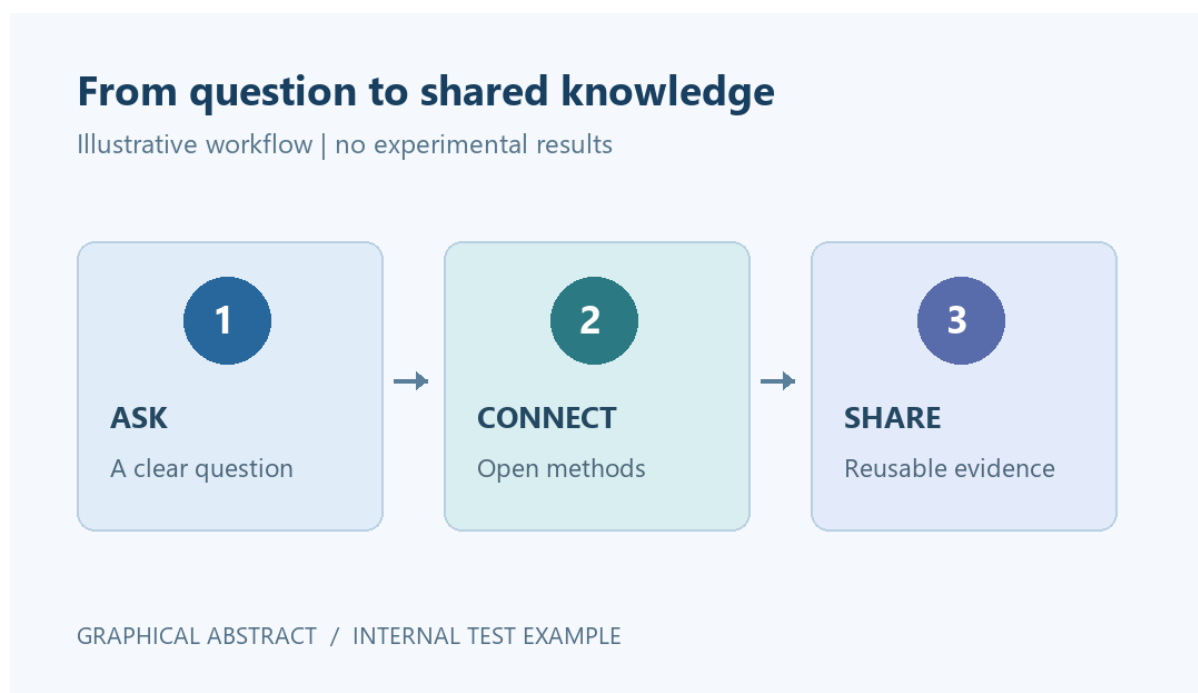

Figure 1. An illustrative workflow. No data or experimental results are represented.

## An illustrative workflow

**Ask:** State a clear question and its scope. **Connect:** Document the methods and supporting material. **Share:** Keep the article and its supplementary files connected and accessible.

## Limitations and availability

All people, affiliations and research descriptions in this example are fictional. A conceptual checklist is available as a CSV supplement. This PDF is provided under Creative Commons Attribution 4.0 International (CC BY 4.0).
